**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I write to urge you to keep the current internet structure that allow companies like Omsoft in Davis, California to exist and to do well. I am a long-time patron of Omsoft's internet access service combined with phone service and I have found both to be first-class and much to my satisfaction.

As a small provider, Omsoft provides exceptional service and close, local contact.

It also provides facilities that support small local nonprofits access to internet resources and thus performs a significant public service function.

Sincerely,

John Lofland
